BILLING

Billing Categories - 4

Possible Points - 42

Category Descriptions: Electronic Percentage

Electronic Percentage

Measurement/Time Frame:

Electronic billing thru the CLC web portal is the most efficient and accurate method of processing stays. Additionally, it avoids mail time as well as delays resulting from physical entry by CLC. This category measures stays which can be billed electronically over last 90 days.

Billing Tips:

- Always check guests into the CLC web portal as soon as possible after the guest checks into your property.
- You only have a limited amount of time to enter the check in date otherwise you will be having to submit the stay information manually, causing delays in your receiving payment.

Scoring:

PLUS	90% electronic
NEUTRAL	greater than 75% but less than 90% electronic
MINUS	less than 75% electronic
WEIGHT	9

Category Descriptions: Billing Accuracy

Billing Accuracy

Measurement/Time Frame:

Billing accuracy is extremely important. Companies monitor employees travel and government agencies require compliance to Federal standards. This category measures the number of credits CLC has issued within the last 90 day period.

Billing Tips:

- Bill accurately which includes correct check in and check out date.
- Remember 24 hour length of stay as agreed to in your contract.

Scoring:

PLUS	1 error or 99.9% correct
NEUTRAL	greater than 98% less than 99.9%
MINUS	less than 98% correct
WEIGHT	12

Category Descriptions: Billing Speed

Billing Speed

Measurement/Time Frame:

Not only is accuracy of billing important, but timely billing assists customers with accurate budgeting. Additionally customers often do project based billing, passing along costs to their respective customers. This category measures bills invoiced to the customer in the last 90 days. It measures the date-out billed vs date CLC received.

Billing Tips:

- Bill timely. CLC recommends you settle stays at least every 3-5 days thru your web portal.
- Send appropriate documentation for manually transmitted stays i.e. guest folio or authorization and the CLC card #. CLC cannot process guest stays from a general ledger statement.

Scoring:

PLUS	0 over 60 days and 90% under 15 days
NEUTRAL	0 over 60 days less than 90% under 15 days
MINUS	Any over 60
WEIGHT	11

Category Descriptions: Excessive Billing

Excessive and Duplicate Billing

Measurement/Time Frame:

Submitting the same bill in for payment multiple times indicates a property may not have an understanding of the CLC billing process or is not reconciling guest stays appropriately. This category measures duplicate billings which have been sent in over the last 90 days.

Billing Tips:

- Don't send in stays for any guest which is already showing in the "Sleep Detail" of your hotel web portal.
- Any documents which you send should clearly identify what you are expecting CLC to do with the document.
- Documentation should be complete.

Scoring:

PLUS	less than 1% of total received
NEUTRAL	less than 5% but greater than 1% of total received
MINUS	greater than 5% or total received

Category Descriptions: Acceptance

Acceptance

Measurement/Time Frame:

It is important a CLC customer/guest can rely on hotels listed in the customer directories. Employees who arrive at hotels must know the hotel is accepting CLC guests unless the property is fully occupied. This category measures any CLC internal call log entry in last 90 days relating to acceptance. (CrewFAX included)

Billing Tips:

- Make sure your front desk and reservation staff is aware of CLC and how to handle or process CLC guests/stays.

Scoring:

PLUS	no complaints
NEUTRAL	1 complaint
MINUS	2 or more
WEIGHT	12

Category Descriptions: Complaints

Complaints

Measurement/Time Frame:

Has a CLC customer complained about the property in the last 90 days. This category is different than acceptance in that it measures items such as quality, last room availability and 24 hour length of stay.

Billing Tips:

- Beyond traditional standard hotel service levels, make sure staff is knowledgeable about CLC contract terms specifically 24 hour length of stay and last room availability.

Scoring:

Savings

Measurement/Time Frame:

Avg retail price VS CLC rate: Actual room rate is set by market and customer budget requirements; percentages are a starting point/general guide.

Billing Tips:

- CLC customer directories are set with a rate cap in place. Having a lower negotiated rate allows the hotel to be in more customer directories.

Scoring:

PLUS	greater than 35%
NEUTRAL	greater than 20% less than 35%
MINUS	less than 20%

Rate Stability

Measurement/Time Frame:

Review of previous contract and current contract.

Billing Tips:

- Maintain your current rate for at least 24 months. Changing your rate affects the number of customer directories which you appear in.

Scoring:

PLUS	current or previous contracted rate effective for greater than 24 months
NEUTRAL	neither contract in place for over 24 months and at least one over 12 months

Category Descriptions: Rate Stability 2

Rate Stability 2

Measurement/Time Frame:

Dates within the current contract that the CLC rate is not available; "black-out".

Billing Tips:

- Most CLC guests make reservation day of arrival, so sold out nights are not generally impacted by CLC customers. Also keep in mind that CLC customers are also in the hotel when occupancy is low.

Scoring:

PLUS	no black out dates
NEUTRAL	1 or 2 instances
