

Introducing NEW CLC Member Numbers

At CLC Lodging, we're always looking for ways to improve check in for our members and hotel partners - and we think our NEW CLC Member Number will deliver! As we roll this out to our customers, you will start seeing new CLC Cards that feature the Member Number - the quickest way to check-in a CLC guest!

Here's how the new CLC Member Numbers will work:

- When you see a CLC Member Number on the front of a CheckINN Card, simply key it into the Check-In form
- The Member Number will be validated and you will be taken to the Check-In screen

Existing versions of the CheckINN Card will continue to be accepted for check-in. All card versions are accepted.

Security Protocol Reminder

Please keep in mind our security protocol, which is referenced here and will be posted as a reminder in your CLC portal next week:

"Please validate the identity of the traveler by inspecting a valid form of guest identification. To comply with security and privacy protocols, do not photocopy CLC Cards or any form of guest identification."

Thank you for partnering with CLC Lodging
